

Technical data sheet:

Mohawk Options: *The Inxwell Paper*

- delivering the print fidelity of coated paper with the touch and tactility of uncoated
- holds more ink on the surface to produce crisper, sharper images and reduce dot-gain
- gets up to colour faster to reduce make-ready time and waste
- surface technology reduces blemishes and creates a more even surface and uniform shade
- 100% PCW white shade
- FSC certified
- manufactured with wind-power
